

# MIRA DOSSAN

Chief Strategic Architect | NeuroForge Technologies

"Shaping tomorrow's neural lattice — one augmentation at a time."

## Corporate Profile

Ruthlessly efficient visionary specializing in neural architecture systems, AI-driven market control, and black-ops R&D; acquisitions. Known across the Nine Sectors for transforming unstable start-ups into compliant, revenue-generating subsidiaries. Whispered to maintain off-ledger assets and strategic ghost divisions outside corporate oversight.

## Key Competencies

- Neural Systems Design — spearheaded the Cerebral Nexus Initiative, integrating 2.8 billion minds into a controlled, cloud-based lattice.
- Megacorp Mergers & Acquisitions — executed 14 hostile takeovers in under 36 months, each without recorded shareholder opposition.
- AI Behavioral Conditioning — pioneered emotional dampening algorithms for drone workforce compliance.
- Corporate Espionage Oversight — operational control over Shadow Protocol Unit 9, handling competitive intelligence extraction.

## Notable Achievements

- 2047: Orchestrated the covert acquisition of rival biotech giant Synexis Corp, now absorbed into NeuroForge's DeepMind Division.
- 2049: Deployed Project VIRE, an adaptive AI infrastructure capable of rewriting its own operating parameters based on market fluctuations.
- 2051: Negotiated exclusive city-grid access rights to Sector 5 Neural Transit Systems, granting NeuroForge full oversight of public thought-routing.

## Employment History
